***Specification Objection***

1. Applicant has incorrectly referred this application in the amended specification filed 09/22/2003 as 371 application. This application is 111(a) application based on the utility patent application transmittal submitted by Applicant on 22 September 2003.

***Priority***

2. As stated above, this application is 111(a) application. Acknowledgment is made of applicant's claim for priority under 35 U.S.C. 119(a)-(d), 365(a) or 365(b) based upon an application filed in PCT/US02/08345 on 09/22/2003. A claim for priority under 35 U.S.C. 119(a)-(d), 365(b), or 365 (a) cannot be based on said application, since the United States application was filed more than twelve months thereafter. Also Applicant cannot claim the benefit under 35 U.S.C 119(e) of provisional applications: 60/276,923; 60/276,953; 60/276,954; and 60/276,955 since the period between the filing date of the provisional applications and the filing date of the instant application is more than twelve months.

***Oath/Declaration***

3. The foreign and provisional priority claimed in the oath is incorrect because the instant application was filed more than twelve months thereafter.

***Response to Remarks***

4. Examiner asserts that this application is 111(a) application based on the utility patent application transmittal submitted by Applicant on 22 September 2003. No
